JOIN THE THOUSANDS ON BOARD AROUND THE COUNTRY

Good morning, one of our staff will contact you later today.

Every year **thousands of dollars** your clients spend on accommodation you provide never reaches your bank account. The percentage paid to external booking sites for each booking that at first seems minimal soon adds up.

The commission based booking system, while currently an essential part of the hotel industry, has problems and is outdated. A group of hoteliers in North Queensland met to discuss the issues, and took results of these meetings to channel managers, resulting in solid partnerships being formed.

The result is Accommodationbutton.com which is an easy to use directory that enables clients to locate your website, details and direct booking page **simply and easily**.

The platform integrates:

- your website, email and phone number.
- a **direct** booking page
- social media: Facebook, Instagram, Twitter
- map-based location with distance to / from.
- space to display 'specials'

What does this mean for you?

- Seamless integration with all your current software — no extra work or time is required of you.
- Penetration of a new and exciting market of people who want to **direct-book accommodation**.
- No loss of current bookings.
- More **\$\$\$\$** in your bank account.

Just one additional booking to your direct booking channel per week could increase your annual income by more than \$10,000 p/a. (Think of the potential with more than one additional booking per week!)

Benefits of Accommodationbutton.com:

- **Commission free** accommodation booking platform.
- **Sign up once.**
- **No updating required** — our software seamlessly integrates with your site and channel manager.
- **One annual fee** of \$250 only
- Discover tips and tricks to maximise traffic through to **your** website.
- Increase **your** visibility on the web.

Take advantage of our introductory local area special.
We will contact you in a few days time for a chat.

You may have a temporary listing for evaluation

Kind Regards

Grant Dixon
